# Contents

|          |   |           |
|----------|---|-----------|
| <b>1</b> | <b>Abbreviations</b>  | <b>11</b> |
| <b>I</b> | <b>User Requirements Specification (URS)</b>                                  | <b>12</b> |
| <b>2</b> | <b>Introduction</b>   | <b>4</b>  |
| 2.1      | Background . . . . .  | 4         |
| 2.2      | Purpose and Scope . . . . .   | 4         |
| 2.3      | Applicable regulatory concerns . . . . .                                      | 5         |
| <b>3</b> | <b>Program Requirements</b>   | <b>6</b>  |
| 3.1      | Trial Designs . . . . .   | 6         |
| 3.1.1    | Group Sequential and Inverse Normal Designs . . . . .                         | 6         |
| 3.1.2    | Adaptive Designs Based on Fisher’s Combination Testing<br>Principle . . . . . | 7         |
| 3.2      | Simulation Tools . . . . .  | 8         |
| 3.3      | Analysis Tools . . . . .  | 9         |
| 3.3.1    | Test Decision . . . . .   | 9         |
| 3.3.2    | Estimating Treatment Effects . . . . .  | 9         |
| 3.3.3    | Conditional Power Calculations . . . . .                                      | 9         |
| 3.4      | Usability . . . . .   | 10        |
| 3.4.1    | Performance . . . . .   | 10        |
| <b>4</b> | <b>Data Requirements</b>  | <b>12</b> |
| 4.1      | Input . . . . .   | 12        |
| 4.2      | Output . . . . .  | 13        |
| <b>5</b> | <b>Life Cycle Requirements</b>  | <b>14</b> |
| 5.1      | System Maintenance . . . . .  | 14        |
| 5.1.1    | CRAN as daily quality control service . . . . .                               | 14        |
| 5.1.2    | Bug report form . . . . .   | 14        |
| 5.1.3    | Version control . . . . .   | 15        |

|  |           |
|--|-----------|
| 5.2 Training of users . . . . .  | 15        |
| <b>II Functional Specification (FS)</b>  | <b>16</b> |
| <b>21 Introduction</b>   | <b>4</b>  |
| <b>22 Overview</b>   | <b>5</b>  |
| 22.1 Purpose and Scope . . . . .   | 5         |
| 22.2 Dependencies . . . . .  | 6         |
| <b>23 Functionalities</b>  | <b>7</b>  |
| 23.1 Business Objects . . . . .  | 7         |
| 23.2 Functions . . . . .   | 9         |
| 23.2.1 Group Sequential Designs . . . . .  | 9         |
| 23.2.1.1 The Prototype Case . . . . .  | 9         |
| 23.2.1.2 Boundary Shape Designs . . . . .  | 11        |
| 23.2.1.3 alpha-Spending Function Designs . . . . .   | 11        |
| 23.2.1.4 beta-Spending Function Designs . . . . .  | 13        |
| 23.2.1.5 Maximum and Expected Sample Size . . . . .  | 14        |
| 23.2.2 Inverse Normal Design . . . . .   | 15        |
| 23.2.3 Fisher’s Combination Test . . . . .   | 16        |
| 23.2.3.1 Type I Error Rate for Fisher’s Combination Test . . . . .                               | 16        |
| 23.2.3.2 Designs . . . . .   | 22        |
| 23.2.4 Sample Size Calculation . . . . .   | 24        |
| 23.2.4.1 Normal Response . . . . .   | 24        |
| 23.2.4.2 Binary Response . . . . .   | 29        |
| 23.2.4.3 Survival Data . . . . .   | 32        |
| 23.2.5 Power Calculation at Given Sample Size . . . . .  | 40        |
| 23.2.5.1 Normal Response . . . . .   | 40        |
| 23.2.5.2 Binary Response . . . . .   | 42        |
| 23.2.5.3 Survival Data . . . . .   | 44        |
| 23.2.6 Analysis Tools . . . . .  | 45        |
| 23.2.6.1 Test Statistics . . . . .   | 45        |
| 23.2.6.2 Confidence Intervals and <i>p</i> -Values . . . . .                                     | 49        |
| 23.2.6.3 Conditional Power and CRP . . . . .   | 55        |
| 23.3 Output Specification . . . . .  | 59        |
| 23.3.1 Trial Design Specifications . . . . .   | 59        |
| 23.3.1.1 <code>getDesignGroupSequential</code> and <code>getDesignInverseNormal</code> . . . . . | 59        |
| 23.3.1.2 <code>getDesignCharacteristics</code> . . . . .   | 62        |

|            |   |            |
|------------|---|------------|
| 23.3.1.3   | getPowerAndAverageSampleNumber . . . . .                  | 63         |
| 23.3.1.4   | getDesignFisher . . . . .                                 | 64         |
| 23.3.1.5   | Graphical Illustration of Test Characteristics . . . . .  | 65         |
| 23.3.2     | Sample Size and Power Calculation . . . . .               | 65         |
| 23.3.2.1   | getSampleSizeMeans . . . . .                              | 65         |
| 23.3.2.2   | getPowerMeans . . . . .                                   | 67         |
| 23.3.2.3   | getSampleSizeRates . . . . .                              | 69         |
| 23.3.2.4   | getPowerRates . . . . .                                   | 71         |
| 23.3.2.5   | getSampleSizeSurvival . . . . .                           | 72         |
| 23.3.2.6   | getPowerSurvival . . . . .                                | 76         |
| 23.3.3     | Design Simulation . . . . .                               | 78         |
| 23.3.3.1   | getSimulationMeans . . . . .                              | 79         |
| 23.3.3.2   | getSimulationRates . . . . .                              | 80         |
| 23.3.3.3   | getSimulationSurvival . . . . .                           | 81         |
| 23.3.3.4   | Reproducibility of Simulation Results . . . . .           | 83         |
| 23.3.4     | Analysis Specification and Output . . . . .               | 83         |
| 23.3.4.1   | Design Specification and Data Input . . . . .             | 83         |
| 23.3.4.2   | Analysis Results . . . . .                                | 88         |
| 23.3.4.3   | Displaying Results . . . . .                              | 93         |
| 23.3.5     | Output Formats . . . . .                                  | 94         |
| 23.3.6     | Comparison of Different Design Parameter Values . . . . . | 94         |
| 23.3.7     | Comparison of Different Designs . . . . .                 | 96         |
| 23.3.8     | Graphical Features and Plot Functions . . . . .           | 96         |
| <b>24</b>  | <b>Data</b>   | <b>100</b> |
| 24.1       | Non-Persistent Data . . . . .                             | 100        |
| 24.2       | Persistent Data . . . . .                                 | 101        |
| <b>25</b>  | <b>Interfaces</b>   | <b>103</b> |
| 25.1       | User Interface . . . . .                                  | 103        |
| 25.2       | Interfaces to other Packages/Systems . . . . .            | 104        |
| <b>III</b> | <b>Software Design Specification (SDS)</b>                | <b>105</b> |
| <b>26</b>  | <b>Overview</b>   | <b>4</b>   |
| 26.1       | Purpose and Scope . . . . .                               | 4          |
| <b>27</b>  | <b>Principles</b>   | <b>5</b>   |
| 27.1       | Avoid package dependencies . . . . .                      | 5          |
| 27.2       | Respect clean code rules . . . . .                        | 6          |

|           |  |           |
|-----------|--|-----------|
| 27.2.1    | Clean Code – Current situation in R                      | 7         |
| 27.2.2    | Clean Code – rpact coding rules                          | 7         |
| 27.3      | Use inline code documentation                            | 8         |
| 27.4      | Use assert functions                                     | 9         |
| 27.5      | Use double colons to call R core constants and functions | 9         |
| <b>28</b> | <b>Layer</b>   | <b>11</b> |
| 28.1      | User interface   | 11        |
| 28.2      | Computation  | 12        |
| 28.3      | Persistence  | 12        |

29.1.28 Business Object NumberOfSubjects . . . . . 110

29.2 Package structure . . . . . 113

29.2.1 Subdirectory 'R' . . . . . 113

29.2.2 Core . . . . . 115

29.2.3 Design . . . . . 115

29.2.4 Analysis . . . . . 116

29.2.5 Simulation . . . . . 117

**IV Verification 118**

**30 Overview 4**

30.1 Purpose and Scope . . . . . 4

**31 Test Plan (TP) 5**

31.1 Testing Requirements and Strategy . . . . . 5

31.1.1 Handling of Testing Failures . . . . . 7

31.1.2 Time Report Types - User, Sys, Real . . . . . 7

31.2 Installation Plan . . . . . 8

31.3 Test Plan . . . . . 8

31.3.1 Check package dependencies . . . . . 8

31.3.2 Run unit tests . . . . . 9

31.3.2.1 Testing the class 'Dataset' . . . . . 10

31.3.2.2 Testing that 'getDataset' throws exceptions as expected . . . . . 36

31.3.2.3 Testing class 'PiecewiseSurvivalTime' . . . . . 38

31.3.2.4 Testing class 'AccrualTime' . . . . . 58

31.3.2.5 Testing the analysis means functionality for one treatment . . . . . 88

31.3.2.6 Testing the analysis means functionality for two treatments . . . . . 134

31.3.2.7 Testing 'getStageResultsMeans' . . . . . 207

31.3.2.8 Testing the analysis rates functionality for one treatment . . . . . 220

31.3.2.9 Testing the analysis rates functionality for two treatments . . . . . 332

31.3.2.10 Testing the analysis survival functionality for the group sequential design . . . . . 390

31.3.2.11 Testing the analysis survival functionality for the inverse normal design . . . . . 410

31.3.2.12 Testing the analysis survival functionality for the Fisher design . . . . . 429

31.3.2.13 Testing assertion functions . . . . . 436

31.3.2.14 Testing the output format functions . . . . . 438

31.3.2.15 Testing core utility functions . . . . . 440

31.3.2.16 Testing utilities . . . . . 463

31.3.2.17 Testing the Fisher design functionality . . . . . 472

31.3.2.18 Testing the group sequential and inverse normal design functionality . . . . . 480

31.3.2.19 Testing the power calculation of means for different designs and arguments . . . . . 500

31.3.2.20 Testing the power calculation of rates for different designs and arguments . . . . . 568

31.3.2.21 Testing the power calculation for survival design for different designs and arguments . . . . . 607

31.3.2.22 Testing the power calculation of survival data for other parameter variants . . . . . 680

31.3.2.23 Testing the follow-up time calculation . . . . . 730

31.3.2.24 Testing internal functions of the sample size calculator . . . . . 731

31.3.2.25 Testing the sample size calculation of means for different designs and arguments . . . . . 732

31.3.2.26 Testing the sample size calculation of rates for different designs and arguments . . . . . 809

31.3.2.27 Testing the sample size calculation of survival data for different designs and arguments . . . . . 849

31.3.2.28 Testing the sample size calculation of survival data for other parameter variants . . . . . 1217

31.3.2.29 Testing the follow-up time calculation . . . . . 1288

31.3.2.30 Testing expected warnings and errors . . . . . 1290

31.3.2.31 Testing the calculation of event probabilities and number of subjects . . . . . 1291

31.3.2.32 Testing design utility functions . . . . . 1295

31.3.2.33 Testing simulation means function . . . . . 1335

31.3.2.34 Testing simulation rates function . . . . . 1394

31.3.2.35 Testing simulation survival function . . . . . 1443

31.3.2.36 Testing the simulation of survival data for different parameter variants . . . . . 1599

**32 Test Protocol (TL) 1702**

32.1 Installation Qualifications (IQ) . . . . .1702

  32.1.1 Windows Operating Systems . . . . .1702

    32.1.1.1 Log file 00check.log . . . . .1702

    32.1.1.2 Log file 00install.out . . . . .1704

  32.1.2 Linux Operating Systems . . . . .1705

    32.1.2.1 Log file 00check.log . . . . .1705

    32.1.2.2 Log file 00install.out . . . . .1708

32.2 Operational Qualifications (OQ) . . . . .1708

  32.2.1 Dependency Check Protocol . . . . .1708

  32.2.2 Unit Test Protocol . . . . .1710

  32.2.3 Test Protocol for Fisher’s Combination Test . . . . .1736

    32.2.3.1 method = equalAlpha . . . . .1738

    32.2.3.2 method = fullAlpha . . . . .1803

    32.2.3.3 method = userDefinedAlpha . . . . .1863

    32.2.3.4 method = noInteraction . . . . .2015

  32.2.4 Test Protocol for Group Sequential Designs . . . . .2044

    32.2.4.1 Wang & Tsiatis Delta Class . . . . .2046

    32.2.4.2 Alpha Spending Kim & DeMets . . . . .2372

    32.2.4.3 Alpha Spending Hwang, Shih, & DeCani . . . . .2706

    32.2.4.4 Beta Spending Kim & DeMets . . . . .3042

    32.2.4.5 Beta Spending Hwang, Shih, & DeCani . . . . .3234

  32.2.5 Test Protocol for Sample Size vs Power Calculation . . . . .3427

    32.2.5.1 Testing Means . . . . .3427

    32.2.5.2 Testing Rates . . . . .3609

    32.2.5.3 Testing Survival . . . . .3718

  32.2.6 Test Protocol for Final Confidence Intervals . . . . .3831

    32.2.6.1 Test of Mean in One Sample . . . . .3833

    32.2.6.2 Test of Means in Two Samples . . . . .3897

    32.2.6.3 Test of Rate in One Sample . . . . .3961

    32.2.6.4 Test of Rate in Two Samples . . . . .3984

    32.2.6.5 Test in a Survival Design . . . . .4007

  32.2.7 Test Protocol for Overall Repeated *p*-Values . . . . .4007

    32.2.7.1 Kim & DeMets Alpha-Spending Designs and  
    Fisher Combination Test with equalAlpha . . . . .4009

    32.2.7.2 Wang & Tsiatis Alpha-Spending Designs and  
    Fisher Combination Test with fullAlpha . . . . .4252

    32.2.7.3 Summary . . . . .4491

  32.2.8 Test Protocol for Repeated Confidence Intervals . . . . .4574

    32.2.8.1 RCIs for One Mean . . . . .4576

    32.2.8.2 RCIs for Two Means . . . . .4632
